

Midway Lifescape Villas Homeowners Association, Inc.

Satellite Dish Placement Notification Form

In order to have uniformity on the property, the following locations have been approved for placement of satellite dishes (no pre-approval is required for these locations). Even though pre-approval is not required for the locations listed below, this form must be complete and submitted to the Association within (5) days of installation of dish.

LAST NAME: _____ FIRST NAME: _____

UNIT #: _____ LOCATION OF DISH: _____

COMPANY WHO INSTALLED DISH: _____

Approved Locations:

1. The chimney located on your unit – strapped to the side, facing south. Cable must run along chimney chase until it enters the unit and must be attached properly to chimney chase so not to be loose or unsightly.
2. Placed in neutral colored buckets or stand-up tripods in a discretionary area as stated above.
3. Mounted to balconies and along top rail of fence line as long as it is discrete and does not detract from the appearance of the property.*

If the above locations do not allow for effective placement for the dish to receive reception, the Board of Directors may approve an alternative location after physically inspection said location to determine that it is discrete and does not detract from the appearance of the property.

Placement is not allowed on exterior walls, roofs of garages. If dishes are incorrectly placed in any of these locations, they must be removed at Owners expense or the unit owner will be subject to a fine and the dish may be subject to removal.

***Note: Any satellite dishes mounted to balconies or along the top rail of the fence line should be mounted in such a way to protect the wood from damage and decay. Owners are responsible for any damage wood in the area where the dish is mounted.**

Please submit this completed form to the Association via fax at 214-778-0557, email at planoadmin@cmamanagement.com, or mail to 1800 Preston Park Blvd, Suite 101, Plano, TX 75093.
